# THE COMPANY STRATEGY

*"Empowering industries and communities with the supply of innovative, sustainable solutions in construction, electrical, and maintenance. Through integrity, excellence, and partnership, we drive South Africa's growth and build brighter futures."*

## PURPOSE

To be a trusted leader in civil construction, electrical, and maintenance services, delivering innovative and sustainable solutions that enhance the functionality and aesthetic of mining operations, corporate parks, and retail spaces.

## GOALS

We strive to deliver high-quality, tailored solutions that address the unique needs of each sector we serve. By supporting local communities through job creation and skills development, we aim to strengthen South Africa's economy and foster sustainable growth.

## VISION

To empower communities and foster lasting partnerships while driving South Africa's economic growth through innovation, integrity, and exceptional service.

## CORE VALUES

We are committed to integrity, ensuring honesty and strong ethical principles guide every action. Innovation drives our progress, enabling us to deliver creative and sustainable solutions. Excellence defines our work, ensuring superior quality and reliability in every project. We empower local communities through growth and development initiatives, and we build lasting partnerships founded on trust and mutual success.

## MISSION STATEMENT

As a proudly BEE Level 2 company, we specialize in providing integrated services for state-owned companies, corporate parks, retail spaces, and mining operations, with a focus on operational excellence, safety, and customer satisfaction.

# ELECTRICAL CONTRACTING AND MAINTENANCE

## Residential

- Wiring for new construction
- Rewiring of existing homes
- Installation of system breakers and fuses
- Home automation and smart home wiring
- Installation of energy-efficient lighting
- Inspection of electrical systems for safety and compliance
- Voltage regulation and surge protection
- Troubleshooting and repair of electrical faults
- Supply and installation of solar geysers
- Supply and installation of solar and smart inverter aircons
- Home wiring for fire alarm systems
- Generator supply, installation and maintenance
- Design, supply, maintenance and installation of solar solutions
- Certificate of compliance

## Commercial Retail Parks

- Wiring for retail store fit-outs
- Electric panel installation and upgrades
- Specialized lighting design and installation (retail displays)
- Parking lot and street lighting
- Emergency exit and pathway lighting
- Motion-activated lighting systems
- Installation of display case lighting and window lighting
- Smart HVAC control systems for energy efficiency
- Energy audits
- Ongoing electrical system inspections, testing and maintenance
- Emergency electrical services and repairs
- Generator supply, installation, maintenance and repairs
- 24/7 emergency call outs for power outages, faults, or dangerous electrical situations
- Certificate of compliance

## Industrial (includes the mining, and state-owned sectors)

- Wiring for office buildings, warehouses, and factories
- Complete electrical system design and installation
- Power distribution systems
- Lighting installation for offices, conference rooms, lobbies, and boardrooms
- High-capacity electrical installations (for industrial grade equipment and machinery)
- The supply installation, repair and maintenance of back-up generators and UPS systems
- Energy-efficient lighting (LED lighting, automated lighting control systems)
- Emergency and exit lighting installations and maintenance
- Parking lot, street, and outdoor lighting
- Specialized lighting for industrial facilities (e.g., high bay lighting)
- Energy management systems (e.g., demand control and power factor correction)
- Energy audits
- Smart inverter aircon supply, installation, repair and maintenance
- Variable frequency drive (VFD) installation for HVAC and machinery
- Preventative maintenance
- Circuit breaker and fuse replacement
- Wiring and panel inspections
- Emergency electrical repairs and troubleshooting
- Power quality analysis and correction
- Integration of renewable energy solutions (e.g., solar power, wind turbines, battery storage)
- High voltage electrical work
- Maintenance of transformers and substations
- 24/7 emergency call outs for power outages, faults, or dangerous electrical situations
- Temporary power setups
- Supply of electrical components i.e. breakers and cable
- Certificate of compliance

# ENERGY EFFICIENCY AND GREEN SOLUTIONS:

EQUIPMENT SUPPLY, SOLAR, GENERATOR INSTALLATION AND MAINTENANCE OF SYSTEMS

## Supply, installation, repair and maintenance

- Installation of solar panels and solar power systems
- Electric vehicle charging stations
- Energy audits
- Cleaning of solar panels
- Maintenance
- Solar plant operation and maintenance
- Supply, installation, and maintenance of smart inverter aircons and solar aircon systems
- Supply of inverters, battery back-up solutions and portable lithium solutions
- Containerized solutions
- Switch gear and PV cable

Pretoria East

# FIRE DETECTION AND SUPPRESSION SOLUTIONS

## Fire Suppression Solutions

- Installation, testing and maintenance of systems
- Engineered systems
- Modular pre-engineered systems
- Specialized systems
- Low-pressure water mist systems
- Integrated fire protection
- Certificate of Compliance

## Fire Detection Products

- Warning Devices
- Gas Control Panels
- Detection Devices
- Manual Call Points
- Interface Units
- Cable and Ancillary Equipment

Our fire suppression solutions provide comprehensive protection with advanced warning devices, gas control panels, and detection systems that quickly identify and address fire risks. We offer a range of engineered and modular pre-engineered systems, including low-pressure water mist and specialized fire suppression products, designed to meet diverse safety requirements. From manual call points to interface units and integrated fire protection, we ensure reliable safety solutions tailored to every environment.

## Gas Installation and Maintenance

- Supply, installation, and maintenance of gas systems
- Gas geysers
- Certificate of Compliance

## Gas Equipment Supply

- Gas appliances like gas geysers
- Fittings
- Regulators
- Certificate of Compliance

Our gas installation and commissioning encompass high-quality installations and equipment supply for commercial and industrial needs. We provide a wide range of gas appliances along with essential fittings, regulators, and accessories for safe and efficient use. From initial setup to ongoing support, our team ensures reliable and expertly installed gas systems tailored to every space.

# SECURITY SOLUTIONS

SUPPLY, INSTALLATION, REPAIR AND MAINTENANCE OF SYSTEMS

## Alarm Systems

- Multi Partition
- All Panels
- Perimeter Beams
- Stack Beams
- RoboGuard
- GSM | Wi-Fi | GPRS

## CCTV Systems

- Analogue
- Digital / IP
- Thermal Systems
- Wireless
- Facial Recognition
- Videofied

## Access Control Systems

- Biometric Systems
- Wave - Touchless
- Facial Identification
- Cards and Tags
- Turnstiles
- Vehicle Barriers
- Multi-LAN Systems
- Fibre Systems

## Electric Fencing

- Commercial to Industrial
- Wall Top Full Height
- All Energiser Systems
- Certificate of Compliance

## Guarding

- 24 hours
- Remote CCTV monitoring

## Intercom Systems

- Office and Complex Systems
- Video | GPRS | GSM | Wi-Fi

We provide comprehensive security solutions for commercial, industrial, and residential needs. Our services include biometric systems, access control, CCTV (analogue, digital/IP, and thermal), intercoms, alarms, electric fencing, and perimeter technologies like RoboGuard. With 24/7 remote CCTV monitoring, guarding services, and advanced integrations like GSM, Wi-Fi, and GPRS, we ensure reliable and innovative security.

# CIVIL CONSTRUCTION SERVICES

Shopfitting

White Boxing

Paving

Ceilings

Plumbing

Renovation

Electric Fencing

Painting & Waterproofing

Fire Protection Solutions

Firewall, Drywall & Partitioning

Roof Installations

Gate Access Control

We specialize in comprehensive construction and renovation services for industrial, commercial and residential projects. We deliver quality and reliability tailored to your needs.

# SUPPLY OF ELECTRIC MOBILITY SOLUTIONS

## Electric Golf Carts

- University campuses
- Game farms
- Warehouses
- Factories
- Resorts
- Airports
- Golf courses
- Other purposes

## Electric Forklifts (3t)

- Efficient lifting
- Reliable performance

We offer a range of efficient and electric forklifts and golf carts designed to meet various industrial, commercial, and recreational needs. Our electric forklifts deliver reliable performance for material handling, while our golf carts provide smooth, quiet, and sustainable transportation solutions. Both are cost-effective, low-maintenance, and built for durability, ensuring optimal functionality and reduced environmental impact.

At Green Leaf Academy, we strive to provide quality education while contributing to South Africa's skills development and economic upliftment. By embracing both full-contact and distance-learning programmes, we ensure accessible, flexible, and inclusive education, supported by the integration of Information and Communication Technology (ICT). This aligns with the Department of Higher Education and Training's (DHET) vision and allows students nationwide to benefit from innovative learning opportunities. In addition to classroom training, students gain practical experience through in-service training at Green Leaf Importers (a licensed electrical contractor) as well as Green Leaf Project Solutions. This hands-on component bridges the gap between theoretical knowledge and real-world application, preparing learners for the workforce.

## OUR COURSES

 <p><b>Assessment Practitioner</b></p> <p>NQF 5   20 credits 5 days</p>	 <p><b>Safety, Health and Quality Practitioner</b></p> <p>NQF 5   256 credits 3 months</p>	 <p><b>Work Based Learning and Development Practitioner</b></p> <p>NQF 5   30 credits 5 days</p>
 <p><b>Training and Development Practitioner</b></p> <p>NQF 5   190 credits 12 months</p>	 <p><b>Skills Development Facilitation Practitioner</b></p> <p>NQF 5   40 credits 7 days</p>	 <p><b>Learning and Development Facilitator</b></p> <p>NQF 5   36 credits 12 days</p>
 <p><b>Electrician</b></p> <p>NQF 4   360 credits 36 months</p>	 <p><b>Hot Water System Installer</b></p> <p>NQF 4   67 credits 6 months</p>	 <p><b>Major Domestic Appliance Repairer</b></p> <p>NQF 3   57 credits 3 months</p>
 <p><b>Solar Photovoltaic Service Mounter</b></p> <p>NQF 4   84 credits 8 months</p>	 <p><b>Solar Photovoltaic Service Installer</b></p> <p>NQF 4   211 credits 24 months</p>	 <p><b>Solar Photovoltaic Service Technician</b></p> <p>NQF 5   344 credits 36 months</p>
